

HORTON HEARS HEARS A WHO!

Who Lives in the Jungle of Nool?

All kinds of animals live in the Jungle of Nool—elephants, monkeys, kangaroos, and eagles. Have the children sit in a circle. One child sits in the middle and thinks of an animal he/she likes. The other children take turns asking yes or no questions until they figure out what kind of animal it is. The child who guesses correctly then gets to sit in the middle of the circle and the game starts again!

Some questions to ask:

Is the animal big? Does it fly? Does it live in a zoo?

Is it cuddly? Does it have fur? Can you pick it up?

Does it have a beak? Can you take it home?

Does it have a tail? Can it swim?
