

GREEN EGGS AND HAM

It's An Eggs-travaganza!

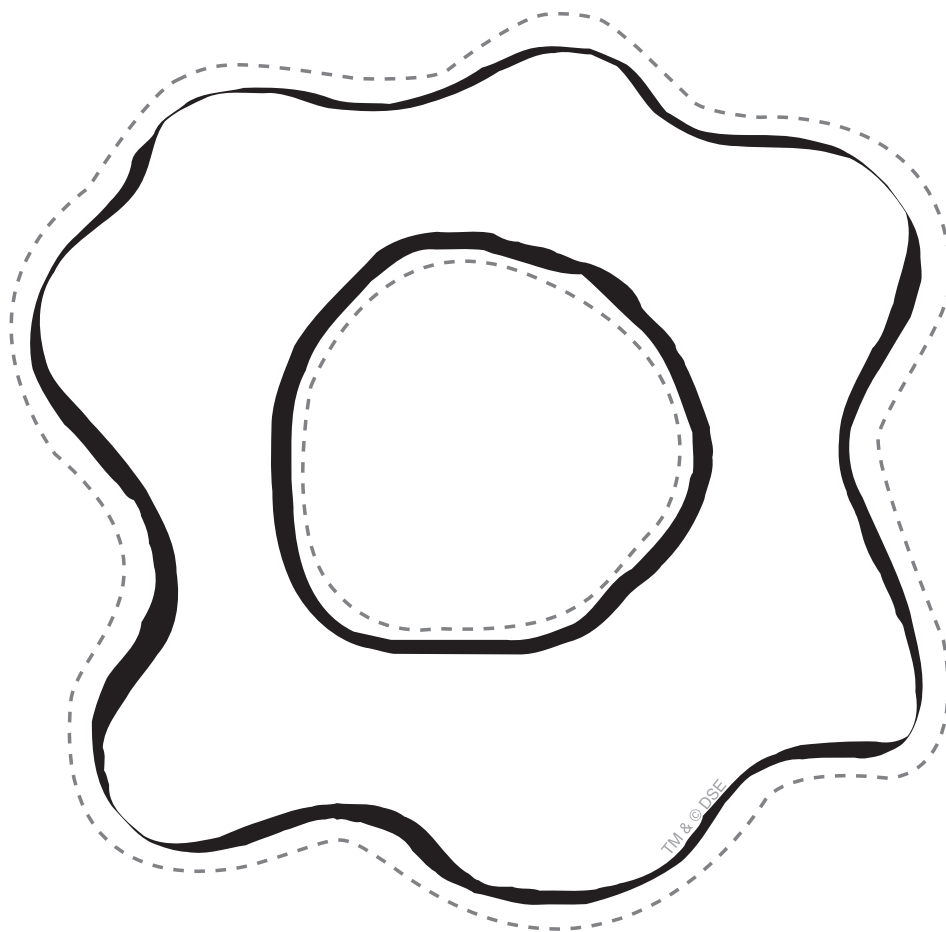

Getting egg on your face has never been so much fun!

Cut out and color the picture frame below. Write your name and attach or draw your picture in the space provided. Now, cut out the egg, including the egg yolk, and place the egg over the picture so that your face is seen through the yolk. Then attach the egg to the frame. For extra fun, place a piece of green saran wrap on the back of your egg, so that your picture turns green when you look through it.
